DETAILED ACTION

a. This application is in condition for allowance except for the following formal matters:

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because it contains legal phraseology "means" (e.g. line 7). Correction is required. See MPEP § 608.01(b).

Drawings

3. Figures 7 8A and 8B should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Improper Multiple Dependent Claims

4. Claims 8-13 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claims. See MPEP § 608.01(n). Accordingly, the claims 8-13 not been further treated on the merits. In addition, claims 9-10 recite the same limitations as in claim 8 and claims 12-13 recite the same limitation as in claim 11. Applicant should amend the claims to avoid the improper dependent (see 37 CFR 1.75 (c)).

Objections

Claims 7, 11-13 the phrases "can be" should be replaced with "is" or "are", whichever is suitable for the claim to be consistent.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 2858

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
